SOME OF THE UNIQUE FEATURES

Personalized Group Mails: Send PERSONALIZED Group mail for e-marketing, new product details, announcements or wishes to thousands of customers at one go. Get detailed delivery report including Delivered, Pending, Bounced, Read, Replied and unsubscribed counts.

Support Management (AIR): Easily manage your Support/BPO/Customer Care teams through XGenPlus AIR. Have automated rules set to allow one email id of the organization being served by multiple agents with strict rules and responsibilities assigned to each agent automatically. Let AIR take care of load balancing and email tracking. Monitor performance of each agent through Admin reports. Manage all this and much more without any extra ticketing software.

- Send Emails from different email Ids using same account
- Get list of New Mails, Read Mails, Yesterday's mails, Today's mails, Replied mails, Forwarded mails, High Priority mails, mails with Attachments, Reply Awaited mails etc.
- Share folders with any other user across the domain on the server

ADVANCE WEB MAIL

XgenPlus webmail is truly a high-tech piece of the entire software. Its features are unparallel to any competition and offer great deal of productivity enhancing, time saving features along with easy admin control for the organization. Entire webmail is customizable as per organizational needs and offer very customer centric services to all email users.

MOST SECURE (SMIME/PGP, SSL, TLS, CRAM MD5)

XgenPlus web mail offers the entire PGP key pair management through web and needs no software to be downloaded on the client PC. Also, public key automatically becomes available to all internal users.
